Meet The Collection

ILLUSION
Stool

The Illusion Series bring a touch of magic to the children's play room decor. These stools are the perfect addition to every bedroom and playroom. The illusion is created by the use of the translucid acrylic that gives the feeling of suspension on air.

For a more childish and playfull touch, the seat is upholstered in colorful synthetic fur inspired by wild animals - polar bear, leopard and wolf - that provides a unique connection to nature while giving extra comfort.

ILLUSION
Table

The Illusion table was designed to be a place where kids can play and study. The surface of the table with a blackboard effect also allows kids to draw with chalk and have fun. It features a pencil cup where kids can store and organize their paint and study supplies.

CLOUD LAMP
Suspension Light

This cloud shaped lamp has a cotton-like texture that replicates the fictional feeling of a fluffy cloud. Inspired by the Pixar short-film "Partly Cloudy", the design relates to the sense of serenity and peace transmitted by clouds, the same feeling we want to create in the children's rooms with this realistic Cloud Lamp. With a sound system and color changing RGB light remotely controlled, this suspension lamp can be used to create a calm atmosphere for the bedtime.
